Click the 3 dots in the upper right

## Step #2

Click on settings

## Step #3

Enter your new password here, please note it needs to be at least 8 characters long

# Website Password Change

Step #1

Step #2

The screenshot shows the Hoopla website's settings page. At the top, a dark blue navigation bar contains the 'hoopla' logo, 'MY HOOPLA', 'BROWSE', 'SEARCH', 'SETTINGS', and 'LOGOUT'. A red circle with the number '81' is placed over the 'hoopla' logo. The 'SETTINGS' link in the navigation bar is highlighted with a red box. Below the navigation bar, the page title 'Settings' is displayed. A message indicates the user is logged in as 'c\_etterling@yahoo.com' through 'Toledo-Lucas Co Public Library'. Three buttons are visible: 'EDIT EMAIL', 'CHANGE PASSWORD', and 'LIBRARY SETTINGS'. The 'CHANGE PASSWORD' button is highlighted with a red box. A red arrow points from the 'SETTINGS' link in the navigation bar to the 'CHANGE PASSWORD' button. Below these buttons are several toggle switches for email preferences, 'Kids Mode', and 'Borrowing History'. A 'SELECT' button is located at the bottom right. A 'LOG OUT' button is at the bottom center. A red box on the right side of the page contains the text: 'Click on Settings in the upper right, then click "Change Password"', with a red arrow pointing from the box to the 'CHANGE PASSWORD' button.

Click on Settings in the upper right, then click "Change Password"
